

BALE SPEAR

FIELDKING

World Class
Agricultural Implements...

FEATURES

Fieldking bale spears will raise a hay bale higher to load onto truck beds, field wagons or double stack in the field or barn.

It is ideal for moving and stacking big round bales anywhere around the property.

The cylinder attached to the top link allows for the bale to be levelled while stacking.

It is fitted with a forged steel spear designed for easy penetration and withdrawal from the most compact hard centered bales.
