

# HEAVY DUTY MINI RIPPER

**FIELDKING**

## FEATURES

Mini Ripper is ideal for use with smaller tractors in small fields and in agricultural tunnels.

It is designed to withstand toughest work conditions of hard black soils.

The profile cut tynes get their strength because of a peculiar design in which the stress prone points are shaped to resist any distorting strains.

Main frame is made out of heavy duty reinforced with projection flats.

## SPECIFICATIONS

Model	FMRIP5
Number of Tynes	5
Tynes (mm)	19 Profile Cut Single Piece
Angle Bracket (mm)	65 x 10 (T)
Frame (mm)	65 x 65 x 10 (T) Angular Frame
Shovels	En-45, 8mm
Frame Bolt (mm)	12 x 40
Three Point Linkage (mm)	50 x 12 Front & 50 x 12 Rear
Height (mm)	533
Length (mm)	1200
Width (mm)	559
Weight (kg)	110
Tractor Power (hp/kw)	18-35/13-26
