

MINI & HOBBY ROTARY TILLER

FIELDKING

FEATURES

Light weight compact machine for compact tractors 15-35hp.
It is used for small farms, fruit and vegetables, orchards, gardening and nurseries.

Suitable for soil conditioning and weed control, seed bed preparation and puddling in small fields. It is compatible for mini and lower HP tractor.

Can loosen & aerate soil 10-15cm deep.

Helical arrangement of the blades reduces load on the tractor which makes tillage fast and economical.

Heavy duty PTO shaft with shear bolt for overload protection.
Sealed bearings prevent moisture/mud entry.
